

JCC Retained as Project Manager for Design Build Luxury Boutique Hotel at the Historic Bedford Village Inn

Jobin Construction Consultants was hired by the Design Build Contractor, Mark Carrier Construction, to serve as their project manager for the design and construction of the 50,000 s.f. Custom Boutique Hotel. The “Grand at the Bedford Village Inn” is the newest piece for the five star luxury resort located in Bedford, NH.

The 50 luxurious guest room and suites are individually designed and decorated to exceed the guest’s expectations. Large custom marble and tile bathrooms, along with extra large guest rooms are the signature of this 5 star hotel. Many guest rooms exceed 450 s.f. And contain fire places for the guest’s enjoyment.

The hotel boasts are large fitness center, year round pool, spa, and outdoor patio area. Inside, the custom lobby bar, commercial kitchen, conference center, and 80 room ballroom are design and constructed to provide guests with the highest of luxury and convenience.

JCC provided management and coordination of the entire design and construction process. The design included the most up to date energy efficient systems, while maintaining the look and features of the historic property.
