

JCC Named Clerk of the Works for Re-Roofing Project At Brookline School

Jobin Construction Consultants was hired by the Brookline School District to oversee a 550 SQ re-roofing and exterior restoration project. This project included re-roofing of the school, attic ventilation improvements, and exterior trim replacement. Work also included roof sheathing replacement due to rot repair in some areas, and fire shutter installation in the attic.

The project was completed within 6 weeks.
