

## **JCC Retained to Manage Construction of Parish Center and New Rectory**

Jobin Construction Consultants was hired by the diocese of Manchester to oversee and manage the construction of a new parish hall and rectory at St. Joseph Parish in Epping, NH.

Included in the new center were several offices, classroom spaces, and a chapel. Also included was a choir and band rehearsal room. The existing kitchen was completely renovated. The buildings second floor was roughed in for future multi purpose space.

The building included high efficiency mechanical and electrical equipment, and windows. The exterior was a durable Hardi Plank siding material.
